

ADDANKI HARI KIRAN

SUPPLIER & VENDOR OPERATIONS | GTM & LAUNCH OPS | PARTNER ACCOUNT MANAGEMENT

Bengaluru, India | +91 9159842840 | hariikiran.addanki@outlook.com | LinkedIn | Portfolio

PROFESSIONAL SUMMARY

Results-driven Vendor and Supplier Operations specialist with over 3 years of hands-on experience orchestrating the full hardware product lifecycle at Crowd Supply, a Mouser Electronics subsidiary. Acts as the sole India-based operational point of contact, reporting directly to the President of Crowd Supply and aligning functions across 8+ internal business units, including Trade Compliance, Procurement, Finance, Logistics, and Product Content. Proven expertise in independently managing long-cycle supplier onboarding, international regulatory compliance, complex price book adjustments, and high-volume product launches. Successfully executed 300+ product deployments and activated 100+ hardware creators within the global Mouser ecosystem. Recognized with multiple performance awards for high autonomy and cross-functional execution.

CORE COMPETENCIES

Launch & GTM Operations:	NPI Launch Operations, Product Listing & Platform Operations, Lifecycle Management
Product & Partner Support:	Supplier Relationship Coordination, Price Book Upkeep, Asset Maintenance, GitHub Workflows
Supply Chain & Logistics:	Purchase Order Management, MOQ & Lead Time Calibration, Inbound Shipment Coordination
Regulatory & Trade Compliance:	HTS/ECCN Classification, RoHS Verification, Onboarding Documentation, Risk Screening

PROFESSIONAL EXPERIENCE

Mouser Electronics (Crowd Supply Division)

Bengaluru, India

Marketing Communications Specialist (Vendor & Supplier Operations)

Nov 2023 to Present

Serve as the sole India-based employee dedicated full-time to Crowd Supply, an open-source hardware crowdfunding platform, reporting directly to the President and driving cross-functional alignment.

VENDOR ONBOARDING & COMPLIANCE SCREENING

- Onboarded 100+ independent hardware creators as active global Mouser vendors, directing the full lifecycle from campaign closure through technical documentation validation and platform activation.
- Collected, audited, and cleared vital vendor documentation (tax forms, corporate banking structures, legal agreements, and corporate branding assets), ensuring absolute data consistency across tax and bank records to mitigate global payment frictions before official submission.
- Initiated end-to-end vendor risk assessments with the Trade Operations team for all incoming creators, submitting necessary tax and banking documents to enable rigorous corporate compliance filters prior to system deployment.
- Maintained complete administrative history, onboarding tracking, and vendor communications within centralized GitHub repositories with 100% data accuracy.

PRODUCT MAINTENANCE & SUPPLIER SUPPORT

- Serve as the dedicated operational point of contact for launched hardware creators, systematically coordinating incoming product updates and lifecycle requests directly through GitHub Issues.
- Execute ongoing catalog updates on Mouser.com based on creator requirements, including precise price book updates, tariff adjustments, and technical specification changes.
- Facilitate high-quality digital storefront presentation by raising Product Content Requests to process creator image updates, localized documentation, and microsite changes.
- Interface between Mouser's corporate inventory team and creators to process requests regarding Minimum Order Quantities (MOQs), production lead times, and shipping schedules.
- Proactively track live stock levels and monitor consumption velocity to issue timely inventory replenishment prompts to creators, mitigating stock-outs.

TRADE CLASSIFICATION & GLOBAL READINESS

- Partnered with internal Trade Compliance business units to review and secure correct HTS and ECCN classification codes for all custom creator hardware entering international pipelines.
- Updated classifications within internal corporate systems and directly communicated critical status changes to global creators.

- Facilitated international market readiness by managing RoHS compliance validation pipelines for incoming creator hardware prior to worldwide warehouse intake.

PROCUREMENT & LAUNCH OPERATIONS

- Initiated precise Purchase Orders (POs) immediately following campaign closures, coordinating with the Procurement desk to align order volume perfectly with collected funding metrics to ensure no over- or under-ordering.
- Coordinated end-to-end vendor payment cycles alongside the Finance team, securing, collecting, and tracking payment confirmations from all vendors to formally close procurement records.
- Successfully published 300+ technical product listings live on Mouser.com by managing technical specification intakes, part build sheet developments, and platform readiness reviews through to live publication.
- Raised dedicated system requests to make components live on Mouser and initiated the process to construct custom product microsites to enhance market visibility.
- Proposed, designed, and received management approval for an optimized post-launch vendor communication workflow, which was successfully adopted as the standard practice across the entire division.
- Awarded **Rising Star** and **Best Performer** honors for consistently exceeding core operational benchmarks across vendor activation, trade compliance, and deployment pipelines.

Khazana Jewellery

Chennai, India

Management Trainee (Marketing)

Aug 2019 to Jan 2020

- Coordinated integrated Above-The-Line (ATL) and Below-The-Line (BTL) regional branding campaigns across 48 high-volume retail showrooms in South India.
- Managed external agency partners, tracking operational timelines and campaign asset delivery schedules to guarantee synchronized multi-market rollouts.

Cognizant Technology Solutions

Chennai, India

Programmer Analyst Trainee

Jun 2016 to Dec 2016

- Completed intensive technical training inside the Enterprise Mainframes domain, covering enterprise data processing frameworks, systems logic, and structured workflow tracking.
